Safety Data Sheet

1. Identification of the Substance/Mixture and the Supplier

Supplier : National Institute of Advanced Industrial Science and Technology (AIST)
Address : 1-3-1, Kasumigaseki, Chiyoda, Tokyo, Japan
Office in Charge : Reference Materials Office, Center for Quality Management of Metrology, National Metrology Institute of Japan
Person in Charge : Certified Reference Material Staff
Telephone No. : +81-29-861-4059 Fax No. : +81-29-861-4009
Emergency Contact : Same as above

Prepared on : January 19, 2010 Revised on : November 21, 2017
ID Number : 1019001

Identity of Substance/Mixture : Certified reference material: NMIJ CRM 1019-a Ni(42%)-Fe Alloy for EPMA

Recommended Use of the Chemical and Restriction on Use : This certified reference material (CRM) is intended to use in calibrating concentration of elements during the electron probe micro analyzer (EPMA) analysis of Ni and Fe in Ni(42%)-Fe alloys. Do not use this reference material for other purposes than testing/research.

2. Hazards Identification

GHS Classification : Respiratory sensitization
Skin Sensitization : Hazard Category 1
Carcinogenicity : Hazard Category 2
Specific Target Organ Toxicity/Systemic Toxicity (Single Exposure) : Hazard Category 1 (Respiratory organ, kidney)
Specific Target Organ Toxicity/Systemic Toxicity (Repeated Exposure) : Hazard Category 1 (Respiratory organ)
Water environment toxicity (Prolonged) : Hazard Category 4

GHS label element : 

Signal Word : Danger
Hazard and toxicity : May cause allergy, asthma or breathing difficulty if inhaled.
May cause an allergic skin reaction.
May cause cancer.
Causes damage to organ (respiratory system).
Causes damage to organ (lung) through prolonged or repeated
exposure May cause damage to aquatic life through prolonged or
repeated exposure.

Other Hazards
Statement : [Precaution]
Precautionary
Statement
Do not breathe dust, mist, vapors, etc.
Avoid release to the environment.
Do not eat, drink or smoke when using this product.
Use appropriate personal protective equipment.
Wash personal protective equipment thoroughly after use.
Wash hands thoroughly after handling.
Use protective globes.
When dust is generated, seal the source, and wear respiratory
protection equipment.

[Action]
If inhaled: Remove victim to fresh air and keep at rest in a position
comfortable for breathing.
Get medical advice/attention if you feel unwell.
If on skin: Remove/Take off all contaminated clothing and adhered
materials. Rinse skin with running water and soap. Immediately get
medical advice/attention.
Get medical advice/attention if you feel unwell
If exposed: Get medical advice/attention.

[Storage]
This CRM should be kept in locked and keyed.
Keep out direct sun light and high relative humidity. Store this
CRM in a clean place at normal room temperature.

[Disposal]
Dispose of this reference material in accordance with applicable
legislation and local government ordinance.
Entrust disposal of this reference material to a professional waste
disposal company licensed by prefectural governor.

The other hazards than the above do not result in classification or
are not classifiable.

3. Composition/Information on Ingredients

<table>

</tbody>
</table>
4. First-aid Measures

If in Eyes : Rinse cautiously with clean water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical advice/attention immediately.

If on Skin : Rinse away thoroughly with clean water. Take off/Remove contaminated clothing, shoes, etc. Get medical advice/attention.

If Inhaled : Remove victim to fresh air and keep at rest and warm. Get medical advice/attention.

If Ingested : Rinse mouth thoroughly with water. Drink a lot of water then it induces vomiting. Immediately call a physician.

Predicted immediate and delayed symptoms : No data

Most important symptom/effect : Skin sensitization.

Protecting Personnel in emergency measures : Wear protective equipment such as rubber gloves, eye protective goggles.

5. Fire-fighting Measures

Extinguishing Media : Use extinguishing media for peripheral fire.

Fire-Specific Hazards : This material is nonflammable. In the case of fire, irritating or toxic fume (or gas) may be generated.

Specific Fire-Fighting Method : Eliminate ignition sources at the origin of a fire and put out fire by using extinguishing media. Remove movable containers promptly to a safe place. In the case of immovable containers, cool their surroundings with sprayed water.

Protection of Fire-Fighters : Carry out fire-fighting from the windward in order to avoid breathing hazardous gas. Use personal protective equipment such as fire protection clothing, heat-resistant clothing, protective clothing, breathing apparatus, circulating oxygen respirator, rubber gloves, and rubber boots.

6. Accidental Release Measures

Personal Precaution : May cause allergy, use appropriate personal protective equipment.

Personal Protective Equipment and Emergency Procedures : Ventilate the affected areas thoroughly, if it is in an indoor environment, until the clean-up operation is completed. Use appropriate personal protective equipment during the operation to avoid skin contact of splash etc. and inhalation of dust and gas.
Environmental Precautions: Take precautions to prevent spillage from draining into rivers etc. to adversely impact the environment. Make it sure to appropriately treat contaminated wastewater in order to prevent untreated wastewater from being released into the surrounding environment.

Recovery and Neutralization Precautions for Secondary Disaster: Collect the contaminated items in an empty container.

Prevention of Secondary Disaster: Mark the restricted area with rope etc. to keep out unauthorized people. Carry out the clean-up operation from the windward and make people on the leeward side evacuate.

7. Handling and Storage

Handling Engineering Precautions: Do not handle with bare hands.

Local and General Ventilation Precautions for Safe Handling: When dust is generated, seal the source, and provide local exhaust ventilation or central ventilation.

Precautions for Safe Handling: Avoid rough handling such as turning over, dropping, giving a shock to or dragging containers. Prevent spill, overflow and scattering, and avoid vapor generation. Keep container tightly closed after using this reference material. Wash hands, face etc. thoroughly and gargle after handling this reference material. Do not eat, drink, or smoke during handling. Restrict drinking, eating and smoking to a designated area.

Use appropriate personal protective equipment to avoid inhalation and contact with eyes, skin and clothing. Do not bring gloves and other contaminated personal protective equipment into staff room. Make a place handling this reference material a restricted area to keep out unauthorized people. Avoid contact with water and acids.

Storage

Appropriate Storage Conditions: Store in clean and dry place such as a desiccator at normal room temperature.

Safe Container Packaging Material: Plastics container

※ Please refer the certificate about the details of appropriate storage conditions and precautions for the use as reference material.

8. Exposure Controls/Personal Protection

Threshold Limit Value

No data

NMIJ CRM 1019-a 4/7
Permissible Concentration (Nickel)
- ACGIH TLV-TWA (2000): 1.5 mg/m³
- Values recommended by Japan Society for Occupational Health (2000): 1 mg/m³
- OSHA PEL TWA: 1 mg/m³

Facility engineering
- Ventilation, exhaust: Local exhaust ventilation system or general ventilation system
- Safety management/gas detector: Measuring instrument, detector tube
- Storing precaution: Keep away from acids.

Personal Protective equipment
- Respiratory protection: Protective dust mask, if necessary
- Hands: Protective gloves
- Eyes: Eye protector (Goggle type as necessary)
- Skin and Body: Protective clothing
- Hygiene measure: Treat in accordance with rules on Industrial hygiene and Industrial safety.

9. Physical and Chemical Properties
- Appearance, etc.: Rectangular piece of metal of about 2.5 mm × 10 mm × 10 mm
- Color: No data
- Odor: No data
- pH: No data
- Melting point: No data
- Boiling point: No data
- Flashing point: No data
- Explosive range: No data
- Vapor pressure: No data
- Relative vapor density (Air=1): No data
- Specific gravity or bulk specific gravity: No data
- Solubility: No data
- n-Octanol/water partition coefficient (Log Po/w): No data
- Auto-ignition temperature: No data

10. Stability and Reactivity
- Stability: Stable in normal conditions
- Reactivity: Reactivity is week.
- Conditions to Avoid:
Contact with water or oxidizing substances may cause rust.

- **Hazardous Decomposition Products**
  - No data

### 12. Ecological Information

- Persistence and Degradability
  - No data available
- Bioaccumulative Potential
  - No data available
- Ecotoxicity
  - No data available

### 13. Disposal Considerations

- Dispose in accordance with applicable regional, national and local laws and regulations.
- Dispose of containers after thoroughly removing their contents.

### 14. Transport Information

- UN Number : Not applicable
- UN : Not applicable
Classification
Shipping Name: -
Packing Group: -
ICAO/IATA: -
Marine: -
Pollutant
Precautions: Transport this reference material carefully while keeping it away from direct sunlight and humidity, and preventing accidental release due to falling, overturning, etc.

15. Regulatory Information
◇ Pollutant Release and Transfer Register (PRTR) Law
  • Class 1 Designated Chemical Substance
◇ Air Pollution Control Act
  • Hazardous Air Pollutants

© This SDS is originally prepared for the use of the material in Japan, thus the stated laws and regulations are stipulated and carried out in Japan. The use of the material in other countries should be referred to and by application of the relevant laws and regulations of the country in which the material will be used.

16. Other Information
Others
The information in this document is not intended to be exhaustive and is based on currently available information and data. The measures given in this document are applicable only to normal handling conditions. When handling this reference material under special conditions etc., it is recommended to take safety measures appropriate to each specific application and context of use. This document is intended to provide information and not intended to guarantee anything in handling this reference material. This document is prepared based on JIS Z7253:2012.
