1. Identification of the Substance/Mixture and the Supplier

Supplier: National Institute of Advanced Industrial Science and Technology (AIST)
Address: 1-3-1 Kasumigaseki, Chiyoda, Tokyo, Japan
Office in Charge: Reference Materials Office, Center for Quality Management of Metrology, National Metrology Institute of Japan
Person in Charge: Certified Reference Material Staff
Telephone No.: +81-29-861-4059
Emergency Contact: Same as above
Fax No.: +81-29-861-4009

Prepared on: April 19, 2006
Revised on: May 16, 2018
ID Number: 4011001

Identity of Substance/Mixture: Certified Reference Material NMIJ CRM 4011-a, o-Xylene
Recommended Use: This CRM is primarily intended for use in calibrating analytical instruments. It is also intended for quality control of analytical instruments, and validation of analytical techniques and instruments. Do not use this reference material for other purposes than testing/research.

2. Hazards Identification

GHS classification
- Ignitable liquid: Class 3
- Acute toxicity (Oral): Class 5
- Skin corrosivity/irritant: Class 2
- Severe damage to eyes/eye irritant: Class 2A
- Reproductive toxicity: Class 2
- Particular target organ/systemic toxicity (Single exposure): Class 3 (Anesthetic action)
- Aspiration respiratory hazard: Class 1
- Water environment toxicity (Acute): Class 1
- Water environment toxicity (Chronic): Class 1

GHS label element:

Signal word: Danger
Hazard and: Ignitable liquid and vapor
toxicity: Skin irritant
Severe eye irritant
Potential toxicity if swallowed
May have adverse effects to reproductive function or embryo
Drowsiness or dizziness
May be lethal if swallowed and spread into respiratory tract
Severe toxicity to aquatic organisms
Long-term impact severely toxic to aquatic organisms

Other hazard and toxicity information:
Inhaling the vapor may cause serious poisoning

Precautionary statement:
[Preventive measures]
No handling before reading and understanding the safety precautions fully.
Handling activities in an outdoor area or in well ventilated area only.
Avoid discharging to the environment.
Wash hands well after the handling.
Avoid inhaling gas/mist/vapor/spray
Use protective eyeglasses/mask/gloves. If necessary, use personal protective equipment

[Response]
If swallowed: If feeling ill, get medical assistance
   Rinse out the mouth well and drink a large amount of water. Do not induce vomiting
If in eyes: Rinse carefully with plenty of water for several minutes. Get medical assistance
If inhaled: Move to get a fresh air, take a comfortable posture to ease breathing and rest
If on skin: Rinse away with soap and a large amount of water.
   Get medical assistance.
If exposed or possible exposure: Get medical assistance.
Take off all the contaminated clothes and wash them if reusing them
Collect the leaked substance.

[Storage]
Store in a locked area.
Protect from light, store in a clean place at the temperature of about −20 °C.

[Disposal]
Incinerate the content and container in an appropriate incinerator, or outsource to a professional industrial waste disposal contractor licensed by the prefectural governor.

Hazards not mentioned above are either not classifiable or not applicable.
3. Composition/Information on Ingredients

Substance or mixture : Single product
Chemical name : \( o\text{-}Xylene \)
Other name : 1,2-dimethylbenzene, \( o\text{-}Xylol \)
Content : 99.93 %
Chemical formula or structural formula : \( \text{C}_6\text{H}_4(\text{CH}_3)_2 \)
Molecular weight : 106.17
Reference Number in Gazetted List in Japan : Act on the Evaluation of Chemical Substances and Regulation of Their Manufacture, etc. : (3)-3
Industrial Safety and Health Act : Published
CAS No. : 95-47-6
Hazardous component : \( o\text{-}Xylene \) (Deleterious substance \( \simeq 15 \text{ mL} \))

4. First-aid Measures

If in eyes : Rinse well with plenty of clean water. Get medical assistance.
If on skin : Rinse well with clean water. Take off the contaminated clothes and shoes, etc. Get medical assistance.
If inhaled : Move to get a fresh air, rest, keep warm. Get medical assistance.
If swallowed : Rinse out the mouth well with water. Do not induce vomiting Get medical assistance
Anticipated acute and delayed symptoms : Drowsiness, dizziness, nausea
Most important characteristics and symptoms : -
Measures to be taken to protect the person involving in emergency first aid : Use personal protective equipment.

5. Fire-Fighting Measures

Specific hazards at the time of fire : Use appropriate protective equipment to avoid inhaling smoke during extinguishing action.
Specific extinguishing measures : Remove fire sources and extinguish using appropriate agent compatible with the substance. Transfer the movable container to a safe place promptly. If impossible to transfer, use water spray to cool the periphery.
Protecting fire-fighting personnel : Extinguishing activities on windward side, avoid inhaling toxic gases. Use protective equipment such as air-breathing apparatus, etc.
### 6. Accidental Release Measures

<table>
<thead>
<tr>
<th>Personal precautions</th>
<th>Promptly remove any fire source from around the substance. Ready for a fire by keeping an appropriate extinguisher at hand.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Protective equipment and emergency procedure</td>
<td>If released indoor, ventilate well until the treatment is completed. Use appropriate protective equipment to protect the skin from the airborne droplets, avoid inhaling dust and gas.</td>
</tr>
<tr>
<td>Environmental precaution</td>
<td>If released indoor, ventilate well until the treatment is completed. Use appropriate protective equipment to protect the skin from the airborne droplets, avoid inhaling dust and gas.</td>
</tr>
<tr>
<td>Recovery, neutralization</td>
<td>To prevent causing environmental impact, do not release the spilled material into sewer, rivers, etc. directly. Treat the contaminated waste water appropriately before discharged to the environment.</td>
</tr>
<tr>
<td>Measures to prevent Secondary accident</td>
<td>Open flame or other sources of ignition prohibited. Adsorb the spilled liquid to waste cloth or to sand and soil and wiped off completely. Recover and collect everything used to clean up the spillage in an airtight container.</td>
</tr>
<tr>
<td>Rope-off the leaked area and restrict access to the area to the authorized personnel only. Evacuate the people on the leeward and work on the windward side</td>
<td></td>
</tr>
</tbody>
</table>

### 7. Handling and Storage

#### Handling

| Technological counter measures | The floor should be of the materials such as concrete, etc. that can prevent from seeping underground. Open flame or other source of ignition prohibited. Avoid contact with high temperature matter, sparks, strong oxidants, etc. |
| Local ventilation/ general ventilation | Use local exhaust ventilation system when handling indoor. |
| Precautions for safe handling | Do not handle the container roughly, no dropping, knocking down or dragging. Prevent leakage, spillage or overflow that causes fume to form. Wash hands and face, etc. well and gargle after the handling. Eating, drinking or smoking should be only at the designated areas. Entering the handling area by the authorized persons only. Use appropriate protective equipment to prevent inhaling, coming in contact with eyes, skin and clothing. |

#### Storage

| Appropriate condition | Use earthed explosion-proof structured electrical equipment in the storage room. Store in a dark clean place at the temperature of about −20 °C. Do not store near strong oxidizers and fire sources. Store in a locked area. |
| Material for safe packing | Glass |
8. Exposure Control/Personal Protection

Administrative levels  
- Working Environment Evaluation Standards: 50 ppm

Occupational exposure limit  
- ACGIH TLV-TWA: 100 ppm STEL, 150 ppm TWA  
- Japan Society for Occupational Health Recommended Reference Value: 50 ppm (217 mg/m³)  
- OSHA PEL TWA: 100 ppm STEL, 150 ppm TWA

Facility engineering  
- Ventilation, exhaust: Install safety shower, hand/eye washer, and indicate their location conspicuously. Local exhaust ventilation system or general ventilation system
- Safety management, gas detection: Detector

Storage precaution: -

Protective equipment  
- Respiratory organ: Chemical cartridge respirator for organic gas, breathing apparatus
- Hand: Protective gloves
- Eyes: Protective eyeglasses
- Skin and body: Protective clothing

Sanitary measures: Replace the masks, etc. used to adsorb the substances, etc. periodically or every time of use. Check them closely for the damage because the substance affects rubber, etc. adversely

9. Physical and Chemical Properties

- Appearance, etc.: Liquid
- Color: Clear and colorless
- Odor: Peculiar odor
- pH: No data
- Melting point: No data
- Boiling point: 144 °C
- Flashing point: 32 °C (Sealed system)
- Explosive range: 1.0 vol % to 6 vol %(in air)
- Vapor pressure: 6.5 hPa (20 °C)
- Relative vapor density (Air=1): 3.7
- Specific gravity or bulk specific gravity: 0.88 (20 °C)
- Solubility: Water-insoluble (0.02 g/100 mL 25 °C), miscible in ethanol and ether
n-Octanol/water partition coefficient (Log Po/w) : 2.8
Auto-ignition temperature : 460 °C to 465 °C

10. Stability and Reactivity
◇ Stability
  • Stable under normal condition
◇ Reactivity
  • Possible ignition in contact with strong oxidizers
◇ Conditions to avoid
  • Sunlight, heat, open flames, high temperature, spark, static electricity, other sources of ignition.
◇ Hazardous decomposition products
  • Carbon monoxide

11. Toxicological Information

<table>
<thead>
<tr>
<th>Acute toxicity</th>
<th>Inhalation humans LCLo: 6125 ppm/12Hmg/kg (RTECS)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Abdominal cavity mice LD50: 1364 mg/kg (RTECS)</td>
</tr>
<tr>
<td></td>
<td>Oral rats LD50: 3608 mg/kg(EHC 190 (1997))</td>
</tr>
<tr>
<td>Skin corrosivity/irritation</td>
<td>Skin irritation rabbits 500 mg/24h moderate</td>
</tr>
<tr>
<td>Severe damage to eyes/eye irritation</td>
<td>Eye irritation rabbits 5 mg/24h severe (Xylene)</td>
</tr>
</tbody>
</table>

Germ-cell mutagenicity
In the mouse teratogenicity tests, an increase in the incidence of cleft palate observed in the embryo at dosing levels toxic to mother animals (no description of mother animal toxicity). (CERI Hazard Data 96—30(1) (1997), CERI・NITE Hazard Assessment Report No.62 (2004))

Reproductive toxicity
Dose related toxicity in mother animals observed in the embryos. (NTP (1986) and ATSDR (2005))

Particular target organ/systemic toxicity (Single exposure)
As for the experimental animals, low blood pressure, drowsiness; central nerve system agitation at low concentration and central nervous system suppression at high concentration, etc. observed (EHC 190 (1997))

Aspiration Hazard
Potential chemical pneumonia due to aspiration (ICSC (J) (2002))

12. Ecological Information
Degradability, concentration
  • No data available
Bioaccumulation
  • No data available
Ecotoxicity
  • Algae (Selenastrum capricomutum) ErC50:0.8 mg/L/72h (Eco-toxicity tests of chemicals conducted by Ministry of the Environment, 1996).
13. Disposal Considerations

- Incinerate in an incinerator equipped with after burner and scrubber

14. Transport Information

<table>
<thead>
<tr>
<th>UN number</th>
<th>1307</th>

<td>Applicable</td>
</tr>
<tr>
<td>Precautions</td>
<td>Transfer with caution by avoiding direct sunlight and fire source at the temperature about −20 °C. Protect from leakage or spill due to fall or drop.</td>
</tr>
</tbody>
</table>

15. Regulatory Information

Fire Service Act

- Hazardous material Category 4 No 2 Petroleum (water insoluble) Hazard class 3

Poisonous and Deleterious Substances Control Act

- Deleterious substance Packing Group 3

Industrial Safety and Health Law

- Article 57 (Enforcement Order: Article 18) Hazardous substance whose name, etc. must be labeled.
- Article 57-2 of the Law (Article 18-2 of the Order), Toxic substances of which the names etc. are subject to the notification: No. 136.
- Ordinance on the Prevention of Organic Solvent Poisoning, Class 2 Organic solvent

Ship Safety Act

- Ignitable liquid

Law Relating to the Prevention of Marine Pollution and Maritime Disaster

- Enforcement Order, Appended Table No. 1 Toxic liquid substance, Category Y substance

Offensive Odor Control Act

- Enforcement Order, Article 1 (Specified offensive odor substance)

Act on Confirmation, etc. of Release Amounts of Specific Chemical Substances in the Environment and Promotion of Improvements to the Management Thereof

- Class 1 Designated chemical substance No. 80

◇This SDS is originally prepared for the use of the material in Japan, thus the stated laws and regulations are stipulated and carried out in Japan. The use of the material in other countries should be referred to and by application of the relevant laws and regulations of the country in which the material will be used.

16. Other Information

Others

The information in this document is not intended to be exhaustive and is based on currently available information and data. The measures given in this document are applicable only to
normal handling conditions. When handling this reference material under special conditions etc., it is recommended to take safety measures appropriate to each specific application and context of use. This document is intended to provide information and not intended to guarantee anything in handling this reference material.
